mei-pay™

Description

Offer your customers a complete range of cashless solutions with CashFlow® mei-pay™ card readers. Adapt to the needs of every application while providing multiple payment options to your customers. Utilize mei-pay as a cash payment alternative, as well as integrating into existing identification and access cards for a closed loop solution—employee discounts and bonus rewards.

Based on open standard MIFARE® technology, mei-pay cashless card readers provide the flexibility you need to respond to your customers' varied needs. Pair with the MEI CF8500 coin changer for the most cost-effective solution. Make every payment possible when you offer mei-pay card readers.

Benefits

Increase your sales when you offer cash and cashless payment choices

Contactless functionality with MIFARE® open standard. Remove the need for key insertion requirements

Minimal maintenance. No moving parts reduces maintenance costs, lowering the total cost of ownership

Increase employee morale and customer loyalty. Variety of bonus options: discounts, loyalty programs, and free vend options

Easy programming. Auto configure media to work on site, on first insertion
