

EASITRAX WEB™ SOFTWARE

The world's most powerful cash box system

Easitrax Web software extends the superior performance of SC Advance™ note validators beyond the gaming floor to the soft count room and back offices. By enabling unprecedented visibility into your transaction and performance data, Easitrax Web software provides the critical insight you need to streamline the drop process, facilitate asset evaluations, optimize slot machine performance and drive preventative maintenance programs.

The result? Faster, smarter, and more profitable operations.

- Streamline cash collection
- Accelerate drop time by up to 40%
- Optimize slot machine performance
- Maximize machine uptime with proactive health monitoring

Technology That Counts™

ADDING VALUE TO YOUR OPERATION IS AS EASY AS 1-2-3.

Easitrax Web is an integrated hardware/software system that funnels information from your SC Advance note validators into an intuitive web portal—making it easier than ever to analyze performance, track assets and make the best decisions for your business.

1. CAPTURE

Transaction and performance data is captured and then transferred through the antenna board to the RFID tag inside the cash box.

- Automate asset tracking
- Eliminate dedicated cash boxes
- Eliminate hot boxes
- Reduce drop time by up to 40%

2. COLLECT

Data is uploaded to a SQL database through the Easitrax Web reader base.

- Reduce variances and quickly locate errors by asset number
- Increase cash accountability with additional revenue check

3. OPTIMIZE

Collected data can be accessed and analyzed through the Easitrax Web portal so you can quickly and easily determine the best actions necessary to save the most time and money.

- Simplify your cash handling processes
- Establish proactive maintenance practices
- Increase machine uptime and performance

1. Slot Floor

Antenna Board
RFID Tag

2. Soft Count Room

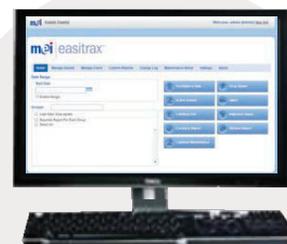

Reader Base

Software

3. Back Office / Secure Global Intranet Access

EASITRAX WEB PORTAL

Design, generate and view reports from anywhere in the world with secure Intranet access. The data collected through Easitrax Web can be organized into customizable reports that highlight the most important metrics to your specific operation:

- Acceptance rate
- Active assets
- Cash box full incidents
- % of denominations accepted by asset
- Drop status
- Jam occurrences
- Rejection types
- Software versions across the estate

VALUE-ADD FEATURES

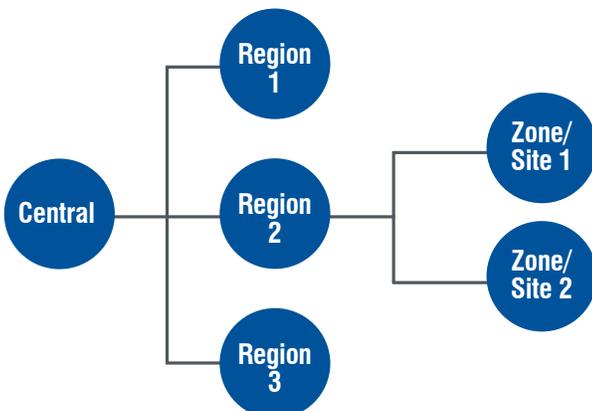

Proactive Maintenance Alerts

By setting your own performance thresholds and receiving automated alerts, you have even faster access to the information you need to maximize uptime and prevent maintenance issues before they even occur—significantly reducing the operating costs associated with downtime and service calls.

- Acceptance rate
- Jams
- Security rejects
- Cash box full
- System Out of Service
- Cash box dirty

Route Reporting Hierarchy

Manage assets and performance at different levels—from the entire estate to the local site level—through a group-in-group reporting structure. Ideal for VLT networks and route operations.

Dynamic Drop Schedule

Precisely pick which machines to collect cashboxes from by creating your own dynamic drop schedule in addition to or instead of zone dropping. Ideal for smaller drop teams.

EASITRAX WEB™ SOFTWARE

Empowered by the data collected from your SC Advance note validator, you can become more profitable and efficient than ever before. Easitrax Web is the powerful tool you need.

Integration with your existing back room equipment is a simple process, and retrofit kits are available to quickly and easily upgrade your existing field base. Only four components are required:

RECOMMENDED SYSTEM CONFIGURATION

- Processor: multi-core processor
- RAM: 4GB or greater
- Hard Disk: 500GB

SUPPORTED OPERATING SYSTEMS

- Windows 10-11
- Windows Server 2019-2022
- SQL server 2017 -2022

PRIVILEGES

- Administrative privileges on the system

Easitrax Web is the smartest cash box system in the industry and is now installed in more than 370,000 machines worldwide. Please contact your CPI sales associate to learn how Easitrax Web can bring newfound efficiencies—and a rapid payback of less than one year—to your operation.
